PROFESSIONAL SUMMARY

Full-stack developer skilled in the MERN stack (MongoDB, Express.js, React, Node.js) with hands-on project experience building web applications and a certified foundation in full-stack development (240-hour program, 90%). Combines core web development skills in HTML, CSS, and JavaScript with strong written and verbal communication from a background in English Literature. Seeking an entry-level full-stack developer role, with particular interest in fintech and product companies.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Frontend: React.js

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman

Languages: English, Hindi, Marathi (fluent)

PROJECTS

Smart Portfolio Tracker | React, Node.js, Express.js, MongoDB

- Built a fintech-focused investment portfolio tracking application as a MERN-stack showcase project aimed at wealth-management and investment-platform use cases.
- Designed RESTful APIs with Node.js and Express.js and used MongoDB for persistent storage of portfolio and holdings data.
- Built a responsive React front end for portfolio visualization and user interaction.
- GitHub: github.com/aamera18

Expense Tracker | React, Node.js, Express.js, MongoDB

- Developed a full-stack expense tracking application enabling users to log, categorize, and review personal expenses.
- Implemented full CRUD functionality through a Node.js/Express.js REST API backed by MongoDB.
- Built a React-based interface for adding, editing, filtering, and visualizing expense data.
- GitHub: github.com/aamera18

Personal Portfolio Website | HTML, CSS, JavaScript, React

- Designed and built a personal portfolio website to showcase projects, technical skills, and certifications.
- Implemented a responsive, mobile-friendly layout using HTML, CSS, JavaScript, and React.
- GitHub: github.com/aamera18
